

CURRENT / COUNTY FOOTPRINT

House footprint and floor areas

County outline redrawn for clarity. No interior walls or room locations are implied.

County drawing orientation. No compass direction assumed.

Current property details

3,050 sq ft above grade

1,236 sq ft basement separately

4 bedrooms per county

3 full baths + 1 half reported

Basement has a very clean concrete finish. No egress windows.

Ceilings about 8 ft. Unmeasured.

Basement and upper-floor outlines are not separately mapped here.

Acreage and outbuildings

Three outbuildings with water and electricity. One horse stall and a three car garage.

Utility storage and a work room. Small orchard. Reported at the September 8 walkthrough.

PROPOSED / OPTIONAL CONVERSION

Five bedrooms and four bathrooms

Scope concept. The existing-layout renovation and the conversion have separate budgets.

01

Renovate the existing home

Retain the primary above-grade footprint as the base project.
Existing 3 full baths + 1 half.
Map bedrooms and rooms by floor.

02

Evaluate a fifth bedroom

Study a basement bedroom and additional finished space.
No existing egress windows.
Evaluate new egress and legal use.

03

Resolve bathroom changes

Existing 3 full baths + 1 half.
Target four full bathrooms.
Study expanding the half bath or an alternative bathroom location.

TARGET ONLY / 5 bedrooms / 4 full baths / about 3,500 finished sq ft

The area target requires about 450 additional verified finished sq ft. Feasibility is unconfirmed.

Added conversion cost remains unpriced.

Room partitions and stair access need a measured layout before a proposed floor plan can be finalized.
